

SHARE MORE, HAVE MORE AT THE SHARE TABLE

If children are still hungry after finishing their school breakfast or lunch, they can head straight to an amazing area called **The Share Table!**

Every cafeteria on campus has a share table full of extra, unopened food and drink items available to you at **zero cost!**

Our share table also reduces food waste; students should place food they don't want on the table instead of in the trash.

And don't forget, if you aren't hungry during breakfast or lunch, take a grab and go bag to donate. The share table exists to satisfy hungry students all free of charge, but it can also be a way to encourage service mindedness in our students. We have students of all backgrounds, and the share table can be a place where we all work together to ensure hunger isn't an obstacle while at school.

Remember parents, **all students eat free** including unlimited fruits/veggies as well as share table items. If you wish to allow your children to purchase extra entree items they can load money onto your child's account by sending a check or online through MY School Bucks. To access, visit the district website, go to School Nutrition, and click on My School Bucks to set up an account.

What healthy food options are your child's favorite? Contact our food service liaison at 270.849.3634

Thank you for helping us make the share table a success, and please feel free to share your thoughts with us at any time!
